

Prairie Moon Waldorf School seeks to develop unique individual qualities and healthy relationships among children so that their lives are imbued with both free initiative and a sense of social responsibility. We utilize an integrated curriculum that educates the "head, heart, and hands" through academic, artistic, and practical work and recognizes Nature's laws, patterns, seasons, cycles and rhythms as the basis of all learning.

January 2010

Dear Families and Friends of Prairie Moon Waldorf School,

Each year parents, teachers, board members, staff, friends and relatives impact the lives of our students by contributing to the Annual Giving Campaign.

As we continue to learn and grow with the wonderful children here at Prairie Moon Waldorf School, we feel renewed appreciation for everything that makes this school so vibrant and full of promise. The ongoing commitment and involvement of many people in various roles all contribute to the success of our school. Each year we build upon previous efforts as your contributions add life and enhancements to Prairie Moon.

Please join with us in ensuring that the Annual Giving Campaign continues to provide a secure foundation for Prairie Moon Waldorf School by making your contribution today.

With heartfelt appreciation for your support,

David A. Eichler
Board President
